Upper frame and accessories	p. 323
Laptop holders	p. 327
Safety seals with numbers	p. 331
Accessories for composite trolleys	p. 333

PART 1

Medication management system

Internal pharmacy equipment range

Wire chromed shelving system

There are 2 types of wire chromed shelving systems: fixed and mobile versions.

Thanks to its sliding structure, the mobile wire chromed shelving is an interesting solution to increase storage surface. On the other hand, the fixed chromed shelving can be set up linearly or in corner.

The flexibility of this range enables to find an adapted solution to everybody's needs without any restrictions.

Hygienic

Ergonomic

Advantages

- ▶ Resistant to heavy loads: from 135 to 337 kg per shelf according to its dimensions
- ▶ Easy cleaning: avoids any accumulation of dust
- ▶ Quick setting up: without nuts, bolts neither tools
- ▶ The wire chromed shelving offers an overview of all stored products
- ▶ The shelving system can be entirely customised
- ▶ Unlimited extension

Internal pharmacy equipment range

Wire chromed shelving system

Mobile shelving

Fixed shelving

Technical specifications

- ▶ Mobile or fixed shelving system (linear or corner setting up)
- ▶ Very resistant and light wire steel structure
- ▶ Ø 25 mm tubular chromed posts
- ▶ Wire height adjustable shelves (25 mm level)
- ▶ Feet are equipped with adjustable actuators which enable to compensate floor unevenness
- ▶ Items are delivered unassembled with clear and practical specifications which enable an easy assembling (without tools)
- ▶ Perfect quality for the highest requirements

Items for fixed and mobile shelving systems

Pillars

	Description	Dimensions (in mm)	Reference
1	Bamboo tube connectors		BF20226

Internal pharmacy equipment range

Optistock® mobile and fixed shelving system

The OptiStock® range has been designed for back-up storage of sterile or non-sterile materials, which are either packed or unpacked.

This range is used in all wards (including internal pharmacies), but particularly for CSSD and operating theatre due to its unique features concerning hygiene.

It enables the ideal configuration to suit the management methods currently applied in healthcare establishments, such as allocation or KanBan.

Hygienic

Ergonomic

Strong points

- ▶ Removable and reversible guides
- ▶ Products are available on both sides
- ▶ Many available models: 400, 600 and 1200 faces
- ▶ Resistance: 200 kg / frame

Internal pharmacy equipment range

Optistock® mobile and fixed shelving system

Optistock® structures

- ▶ Epoxy welded steel structure with fixing parts and posts
- ▶ Ø 100 mm wheels, 2 with brake (for mobile model)
- ▶ Load resistance: 200 kg / frame (resistance can be different according to the equipment in the structure)
- ▶ U-shaped posts with rounded grooves
- ▶ 1 available colour: grey

Fixed structures

Description	Main structure	Additional structure
600 x 400	8A700	8A705
400 x 600	8A710	8A715
1200 x 400	8A740	8A745
1200 x 600	8A750	8A755

The fixed Optistock® structures which are more than, 1200 mm long are delivered dismantled.

Mobile structures

Description	Main structure	Additional structure
Simple 600 x 400	8A701	–
Simple 400 x 600	8A711	–
Triple 600 x 400	8A703	–
Triple 400 x 600	8A713	–
Double 400 x 600	8A702	–
Double 600 x 400	8A741	–
Simple 1200 x 400	8A741	8A742
Simple 1200 x 600	8A751	8A752

Don't join more than 3 mobile structures.
For more, better use the fixed models.

Medication preparation range

Severo[®] electrical pill crusher

In order to facilitate medication intake, medical staff must regularly crush the pills for the patients who have swallowing disorders.

In order **to avoid musculo skeletal disorders** due to manual crushing, the electrical Severo[®] crusher has been developed in cooperation with health professionals.

This crusher which has already been approved by many establishments, enables **to reduce hard medicines into fine powder** in less than 8 seconds.

Hygienic

Ergonomic

Advantages

- ▶ Simple, efficient and robust
- ▶ Low noise
- ▶ Crushing without any effort neither MSD
- ▶ Can easily be cleaned
- ▶ Light and handy

Description	Reference
Severo® electrical pill crusher	NA00030
Batch of 2100 single use cups	NA00014.01
Batch of 2000 single use lids for cups	NA00015.01
Batch of 2100 washers single-use Cellophane	NA00016
Stabilizer Severo®	NA00040
Swallowing gel (Tutti Frutti flavour) 150 mL	NA00041
Swallowing gel (Tutti Frutti flavour) 1 liter	NA00042

Use

Put the medicines into the cup until the first line maximum.

Place the crushing head onto the cup.

Open the Severo® lid by pressing on the metallic button.

Place the cup with crushing head on the tray.

Close the Severo® lid by light pressure.

Press the power supply key so that the crushing process starts. The LED light of the key turns to green once crushing is finished.

Open the lid and lift up the crushing head. The medicines are reduced to fine powder and can be mixed with patients' meals or the Swallowing gel.

The Swallowing gel helps to mask the bitter taste of medications and does not affect its action. It contains no sugar, alcohol or common allergenic substances. It is suitable for all patients.

Medication preparation range

Tookan[®] pill crusher

The Tookan[®] pill crusher enables to reduce drugs to **powder**. As it is equipped with an integrated handle which allows to crush all medicines without any efforts, it is suitable for anybody.

Thanks to the storage of bags in the Tookan[®], **no loss neither contamination** are possible with other medicines. Hygiene is therefore completely respected.

Advantages

- ▶ Easy use
- ▶ Resistant to disinfecting products of hospital environments
- ▶ Crushing without any effort
- ▶ Bags are stored in the crusher

Medication preparation range

Tookan® pill crusher

Technical features

Tookan® pill crusher

- ▶ Steel base with epoxy coating
- ▶ Aluminium handle
- ▶ Anodised aluminium crushing part
- ▶ Stainless steel axis

Bags for pill crusher

- ▶ Transparent low density polyethylene
- ▶ Thickness: 180/200 µm
- ▶ Environment-friendly

Title	Dimensions (in mm)	Reference
Manual pill crusher Tookan®	L. 265 x D. 75 x H. 90	NA00017
Batch of 1000 bags for Tookan®	L. 50 x H. 100	NA00011.01

Operating instructions

Take a bag in the storage compartment.

Insert medicines into the bag and fold it up.

Put the drugs into the polyethylene bag and place the bag into the crusher.

Press smoothly on the handle with fingertips without releasing the bag.

You can take the drugs which are now reduced to powder.

Medication Preparation Range

Pili® Blade

Pili® Blade is the essential working tool for preparing medication!

The cutting of medication blisters with a pair of scissors is over.

With Pili® Blade, **reduce difficult cutting and increase productivity.**

Photos are not contractual

Advantages

Reducing the penalty of repetitive work

- ▶ Natural and fluent movement without effort
- ▶ Reduces the risk of MSD

Productivity gain

- ▶ Reduced number of operations
- ▶ Fast and efficient
- ▶ Cuts all types of blisters and bags

Increased security

- ▶ Safe and unreachable blade
- ▶ Avoids accidental cuts with the pair of scissors

Technical features

- ▶ Dimensions: L. 90 x W. 100 x H. 124 mm
- ▶ Stainless steel blade for effortless and efficient cutting
- ▶ Cuts all types of blisters and bags

PART 2

Care furniture and ward's equipment

Neop | 600 x 400 mobile work surfaces

Care preparation in hospital wards or technical platform wards

- Robustness: excellent resistance, one-piece structure made of aluminium
- 100 % hygiene: designed with a minimum of retention zones, and resistant to disinfecting products of hospital environment
- Customization thanks to a wide range of drawers and accessories
- Ward name identification
- Ergonomic and handy: designed for medical staff comfort
- Unique design and harmonious colours

Robust

Hygienic

Ergonomic

Customizable

- Double or triple mobile column
- Height: 100 cm
- Roller shutter door, door wing or without door
- Code lock (with spare key) or badge lock, or without lock
- Optimal storage unit under work surface with direct access to products, thanks to front drawers without curtain door
- Mobile work surface: easy cleaning

Customizable structure

3 available colours

Magenta pink

Apple green

Sky blue

Standard configurations - BASIC

For precise height, see technical data

Mobile work surface with 2 columns

Reference	Description
8YPTM264H100_RM	NEOP "Basic" mobile work surface 2 col. 600x400 H100 without roller shutter door - magenta pink
8YPTM264H100_VP	NEOP "Basic" mobile work surface 2 col. 600x400 H100 without roller shutter door - apple green
8YPTM264H100_BC	NEOP "Basic" mobile work surface 2 col. 600x400 H100 without roller shutter door - sky blue

Mobile work surface with 3 columns

Reference	Description
8YPTM364H100_RM	NEOP "Basic" mobile work surface 3 col. 600x400 H100 without roller shutter door - magenta pink
8YPTM364H100_VP	NEOP "Basic" mobile work surface 3 col. 600x400 H100 without roller shutter door - apple green
8YPTM364H100_BC	NEOP "Basic" mobile work surface 3 col. 600x400 H100 without roller shutter door - sky blue

Custom configurations

STEP 1 - Mobile work surface structure

Choice of mobile work surface structure according to its dimensions

Double-column work surface 40 mm level	Triple-column work surface 40 mm level
8Y264H100P4.PM	8Y364H100P4.PM

This reference includes:

- Structure
- Wheels
- Inside panels

STEP 2 - Mobile work surface customization

Selection of elements 1 to 4

Closing system, locking system and colour strips must be ordered in duplicate for a mobile double-column work surface, and in triplicate for a mobile triple-column work surface

		Double-column work surface	Triple-column work surface
1	Upper shelf	8Y001_6400CP2	8Y001_6400CP3
2	Roller shutter door	8Y002_6010F3 (x2)	8Y002_6010F3 (x3)
	Door wing	8Y002_0010F1 (x2)	8Y002_0010F1 (x3)

Mobile work surface can be ordered without closure.

BE CAREFUL! For double-column work surface without roller shutter door or with door wing, you have to add 2 end stops ref. [8Y014](#). For triple-column work surface without roller shutter door or with door wing, you have to add 3 end stops ref. [8Y014](#).

3	Code lock	8Y003CODE3 (x2)	8Y003CODE3 (x3)
	Badge lock	8Y003BADGE3 (x2)	8Y003BADGE3 (x3)

Mobile work surface can be ordered without lock.

4	Colour	Magenta pink	8Y004_0010RM (x2)	8Y004_0010RM (x3)
		Apple green	8Y004_0010VP (x2)	8Y004_0010VP (x3)
		Sky blue	8Y004_0010BC (x2)	8Y004_0010BC (x3)

Overall dimensions of trolley

Useful dimensions of upper shelf

Double mobile work surface:
L. 1457 mm
D. 562 mm

Triple mobile work surface:
L. 2174 mm
D. 562 mm

Upper shelf height

H. 1064 mm

Materials

Structure	Complete welded and EPOXY anti-corrosion treated aluminium one-piece structure
Work surface	Compact laminate 10 mm thickness
Slides	ABS (Acrylonitrile Butadiene Styrene)
Closing system	Roller shutter door: PP (Polypropylene), 2 mm thickness Door wing: Aluminium with EPOXY painting
Wheels	Simple non marking rubber wheels - polyamide cover (PA)
Bumpers	4 non marking round stop blocks made of EVA (Ethylene Vinyl Acetate)
Strip of colour	70 micron calendered PVC vinyl film with acrylic adhesive

Additional information

Wheels	125 mm diameter - 2 breaking wheels + 2 swivelling wheels Wheel and wheel-pin double blocking	
Empty weight	Double: 56 kg	Triple: 80 kg
Capacity	Double (40 mm levels): - 38 levels for mobile work surface with roller shutter - 40 levels for mobile work surface without roller shutter or with door wing	Triple (40 mm levels): - 57 levels for mobile work surface with roller shutter - 60 levels for mobile work surface without roller shutter or with door wing
Locking system	Code lock / Badge lock	

Packaging

Packing	Individually on pallet strapped and film-wrapped, or on wheels, with proper protection	Dimensions L X D x H	Double: 80 x 150 x 120 cm Triple: 80 x 220 x 120 cm
Gross weight (structure + packaging)	Double: 68 kg Triple: 92 kg	Volume	Double: 1,5 m ³ Triple: 2,2 m ³

Neop | Tubular work surfaces 400 depth with or without sink

Care preparation plan or administrative work plan

- Essential element for nursing room arrangement
- Excellent stain resistance: to liquids, fluids and chemicals
- Thermoformed resin sink: easy cleaning
- One-piece manufactured drip tray
- Covered backsplash for easy washing
- Lab edge for water retention

Robust

Hygienic

Ergonomic

- Work surface equipped with or without built-in sink
- Sink located on right or left side
- Fixed version or mobile version on wheels
- Resin or compact laminated work surface
- With or without backsplash version
- 2 or 3 possible Neop hanging storage units, with 60 or 80 cm height and 400 mm depth (please see corresponding data sheet)

Tubular work surface selection

Selection of base, work surface and wheel kit for mobile version, or jack foot kit for fixed version

Base

Base for 2 storage units	Base for 3 storage units
8Y406	8Y407

Work surface

		Work surface for 2 storage units	Work surface For 3 storage units
Made of compact laminate	With backsplash	8Y403	8Y405
	Without backsplash	8Y402	8Y404

		Work surface for 2 storage units	Work surface for 3 storage units
Made of resin	With backsplash	8Y400	8Y401
	With backsplash and sink on right side	8Y400CD	8Y401CD
	With backsplash and sink on left side	8Y400CG	8Y401CG

Wheel or jack foot kits

	Work surface for 2 storage units	Work surface for 3 storage units
Wheel kit compatible with laminate work surfaces	8Y400_R	8Y400_R
Jack foot kit compatible with resin and laminate work surfaces	8Y400_V	8Y400_V

Technical data for work surface without sink

2-module work surface F600
made of compact laminate
with backsplash and wheels

With one, two or three hanging units, mobile work surface movement must be limited.

Hanging units are not included:

Please refer to product data sheet "Neop hanging units H 60 and H 80" and their "hanging kit ref. 8Y546" and/or Refer to technical data sheet "Neop mobile units"

3-module work surface F600
made of acrylic resin
with backsplash and jack feet

* Usable height on work surface

Materials

Structure	50*30 mm rectangular tubular structure made of EPOXY anti-corrosion treated steel
Work surface	Compact laminate 10 mm thickness or acrylic resin 13 mm thickness, with or without backsplash
Wheels	Double PolyAmide (PA) tread – Flexible PolyUREthane tape (PUR) steel ball bearings
Jack feet	PolyPropylene (PP) + galvanized steel

Additional information

Wheels and feet	Wheels: 65 mm diameter – double running – 4 swivelling (2 breaking wheels) Jack-foot: M10x120 mm, adjustable up to 7 cm maximum
Empty weight	With compact laminate work surface: 43 kg (2 modules) and 51 kg (3 modules) With acrylic resin work surface: 65 kg (2 modules) and 85 kg (3 modules)
Loading capacity	300 kg at total, for all models

Packaging

Packing	Individually on pallet strapped and film-wrapped, or on wheels with proper protection	Dimensions L X D x H	2 modules: 220 x 90 x 110 cm 3 modules: 250 x 90 x 110 cm
Gross weight (work surface + packaging)	<u>Compact laminate work surface:</u> 2 modules: 53 kg 3 modules: 61 kg <u>Acrylic resin work surface:</u> 2 modules: 75 kg 3 modules: 95 kg	Volume	2 modules: 2,2 m ³ 3 modules: 2,4 m ³

Technical data for work surface with sink

In option: left sink or right sink

Hanging units are not included : Please refer to technical data sheet "Neop hanging units" and "Neop mobile units"

Materials

Structure	50*30 mm rectangular tubular structure made of EPOXY anti-corrosion treated steel
Work station and sink	Acrylic resin 13 mm thickness, with chipboard panel thickness: 19 mm
Jack feet	Polypropylene (PP) + galvanized steel

Additional information

Work station	3-side backsplash, drip tray. Lab edge, on front side for water retention H 8 mm Total height: 32 mm – Sink-cover, adjustable drain plug and pipe included
Feet	Jack feet: M10x120 mm, adjustable up to 7 cm maximum
Empty weight	With acrylic resin work surface: 68 kg (2 modules) and 87 kg (3 modules)
Mixer tap	Hospital model with swivel spout - Lgth: 250 mm
Loading capacity	300 kg at total for all models

Packaging: please refer to technical data sheet for work surface without sink

Net weight	2 modules: 73 kg 3 modules: 92 kg

Care furnitures and equipments

Multi-sensory nursing trolley Satellite®

The Satellite® trolley is dedicated to the gerontology and disability sectors and was designed in collaboration with doctors, occupational therapists and psychomotricity specialists to provide the multi-sensory care based on hearing, sight, smell, and touch.

Photos are not contractual

Advantages

- ▶ A mobile and autonomous solution which doesn't need any dedicated room
- ▶ Usable in any facility including wet environment: bathroom or balneotherapy
- ▶ Adapted to people who have difficulty moving: bedridden or in (wheel) chair
- ▶ A cart which combines all kind of multi-sensory elements

Care furnitures and equipments

Multi-sensory nursing trolley Satellite®

An easy-to-use ergonomic trolley

The Satellite® trolley is a compact, autonomous solution that can be used anywhere in your establishment. It provides bedside care, whether the patient is bedridden or in a wheelchair.

Description

Multi-sensory nursing trolley Satellite® - with accessory kit

9T000_1

Multi-sensory nursing trolley Satellite® - without accessory kit

9T000_2

Musical speakers
high definition

Adjustable spotlight
for video broadcasting
on wall or ceiling

Essential oil diffuser:
6 different fragrances

Fiber optic cables,
with colour changes,
located at optimal
height for people in
bed or in (wheel) chair

**Storage drawers
of small materials:**
light balls, hedgehog balls,
heating pad...

Water bubble panel
big size: seamless flow
and quiet pump

Care furnitures and equipments

Multi-sensory nursing trolley Satellite®

Care programmes

The Satellite® trolley has six predefined programmes and one free programme. The programmes can be selected according to the patient's non-drug care protocol.

Treatment programmes can be set in motion with a single action: from the control panel or remotely from the touch pad. All multi-sensory elements are activated simultaneously: video, music, fragrance, water bubble panel, and fibre optic cables.

Pre-set care programmes

- ▶ Stimulating
- ▶ Balneo
- ▶ Before meal
- ▶ Soothing
- ▶ Relaxing
- ▶ Night

Free atmosphere

The free programme is a customised programme, and its parameters can be defined using the tablet. It's possible to copy an existing programme and then modify it with data from another programme. Each multisensory parameter can be activated or deactivated.

Vidéoprojecteur

The video projector is secured by a dome with a lock. The dome protects it in particular from splashing water when used in balneotherapy. The projector is easily adjustable and tiltable for wall or ceiling projection.

Essential oil

6 organic essential oil fragrances are stored in a drawer of the trolley to be diffused into the air by ventilation. The essential oils were chosen according to their properties, with no contraindications in the elderly.

Description	Reference
Essential oil Petitgrain paraguay	9T200
Essential oil Relaxation (synergy: lavender / Roman chamomile / orange blossom)	9T201
Essential oil Sweet orange	9T202
Essential oil Marjoram	9T203
Essential oil Lemon	9T204
Essential oil English lavender	9T205

Care furnitures and equipments

Multi-sensory nursing trolley Satellite®

Composition of the accessory kit

Description	Reference
Satellite® trolley accessory kit	9T100

Hedgehog ball

Their small spikes help you relax and feel a sense of well-being. You can have fun rolling them between your palms. Use them in a massage all over the body to stimulate the tactile and proprioceptive sensory systems.

Diameter: 6 cm. Made of PVC.
Colours according to stock.

Light up eggs

Set of 3 light up eggs with subtle colour changes and a relaxing luminosity. This is a beautiful, smooth and light object that invites tactile and visual exploration in a multi-sensory environment.

It operates on 3 button batteries (included).
LED bulb. Dimensions: 9 cm.

Touch ball

This coloured ball enables to awaken the senses thanks to its pins! Ideal for a body massage in order to provide a real moment of wellbeing and relaxation and to make the patient aware of his / her body. Covered with bulges, it can be also used for sporting purposes.

Diameter: 12 cm. Made of PVC. Latex-free.
Colour according to stock.

Kalimba with 9 blades

Kalimba tuned to La4-Do5-Do4-La4-La3-Fa4-Mi4-Mi5-Si4. This musical instrument is held in both hands and played with the tips of both thumbs. It is perfectly tuned and its synthetic skin provides a brilliant sound. This instrument can be played between the hands or laid down, which offers more volume and variation.

Dimensions: L. 19,8 cm x l. 15,8 cm x H. 4,4 cm.

Care furnitures and equipments

Multi-sensory nursing trolley Satellite®

Vibrating pillow

This vibrating pillow is very nice to touch thanks to its white fabric with fur effect. The soft vibrations facilitate relaxation and work very good to calm over-stimulated patients down. The switch allows to choose between 2 vibration intensities or a use without any vibrations.

Removable cover washable in washing machine.

Works with 2 LR06 included batteries.

Dimensions: 30 x 30 cm.

Sensory blanket

This blanket is suitable for sensory perception disorders. On one side, a very soft surface with small bumps invites exploration and cocooning. The front side is made of different materials to arouse the user's interest and curiosity.

Dimensions: 80 x 80 cm.

Linseed Weighted Mats

A small weighted mat filled with natural flax seeds that can be heated in the microwave and cooled in the fridge.

Removable cover for easy maintenance.

Navy blue color.

Dimensions: 50 x 34 cm - Weight: 1.255 kg

Care furnitures and equipments

Multi-sensory nursing trolley Satellite®

Technical specifications

Materials

Tablet	Chemically treated ABS/PMMA, grey colour
Video bubble	Translucent PMMA
Cabinet / door	Epoxy treated aluminium
Drawer and control panel	Compact laminate, 8 mm thickness, grey
Fibre cable reel / tablet support	Epoxy treated steel
Covering	Calendered rubber PVC film of 70 microns with acrylic adhesive coating

Locking system

Drawers	Combination lock
Technical drawer (batteries)	Key lock with different number combination
Video bubble	Key lock with different number combination

Miscellaneous

Wheels	Diameter: 125 mm, 2 wheels with brakes + 2 caster wheels - Caster wheels with double locking system
Capacity	3 drawers for accessories
Maximum load capacity	6 kg per drawer
Empty weight of trolley	76 kg
Maximum load capacity	20 kg
Maximum slope	10°

Oral hygiene

Dental Prosthesis Cleaning System C2S PRO®

The C2S Pro cleaning system was developed to improve dental care in healthcare facilities. It significantly lowers bacteria and fungi (candidiasis) levels, reducing the occurrence of some systemic diseases (upper respiratory disease). Regular care of dental prostheses improves the general health of residents. In addition, daily use of the C2S Pro reduces referrals to specialists (dentists, physicians and prosthodontists).

The C2S Pro cleaning system, developed for daily and restorative cleaning of all types of removable and screw-retained dentures through dynamic brushing with special alloy bristles, helps clean dentures thoroughly and prevents the formation of plaque and tartar.

Hygienic

Ergonomic

Key points

- ▶ Ease of use and makes cleaning easier
- ▶ Eliminate plaque that naturally lines dentures
- ▶ Simple and effective for ensuring the long life of dentures
- ▶ Limits the use of specialists (dentists, dental technicians, etc.)

Oral hygiene

Dental Prosthesis Cleaning System C2S Pro®

Cleaning system

- ▶ Dim: L. 20 x W. 17,5 x H. 19,5 cm
- ▶ Cleaning operation: magnets rotating at 1800 rpm
- ▶ Timing: 2 min / 5 min / 10 min / 15 min / 20 min
- ▶ Automatic system shutdown
- ▶ Certification: CE
- ▶ Power supply: separate CE-certified transformer, input : 100-240 V / output : 12 V
- ▶ Warranty: 2 years

Soiled linen range

Dirty linen collection trolleys

In order to collect dirty linen in your establishment, we propose **trolleys with fixed or spring-loaded bottom**.

Our trolleys with fixed bottom are equipped with a lid and a drop-down door mounted on hinges. The lid is made of 2 parts: 1/3 is fixed and 2/3 can open until 130°.

On another hand, our trolleys with spring-loaded bottom are composed of a tray which goes up or down according to the load. This system works with a spring and considerably improves staff work conditions.

Roll trolleys for linen

Our roll trolleys are ideal for **the collection of dirty linen and for the distribution of washed and ironed linen.**

Treated with high quality silver electrolytic galvanising, these roll trolleys are different as their beautiful design is very resistant.

They are also very light and, thus, easy to handle. Thanks to its limited size, the standard roll trolley can be used in small establishments and is adapted to be used in elevators.

PART 5

Patient file management

Patient file management

Patient file trolleys

Photos non contractuelles

The patient file trolley range is designed for the storage of medical and x-ray files.

These ergonomic and modular items enable an optimised storage of the files according to each ward's needs.

File confidentiality is assured thanks to the curtain door or upper shelf closing. You can also adapt a laptop support on all trolleys and therefore get access to computerized patient files.

Strong points

- ▶ A4 or A3 Medical files
- ▶ Guaranteed confidentiality
- ▶ Patient file computerisation
- ▶ Modular: storage on hanging files or in adjustable compartments
- ▶ Resistant to the disinfecting products of hospital environment

Patient file management

Patient file trolleys

Trolleys for folding records in front panel

- ▶ Structure: steel with epoxy coating
- ▶ Removable and sliding curtain door
- ▶ Key lock system
- ▶ Number of dividers provided: 28
- ▶ Number of maximum provided: 56
- ▶ Adjustable dividers, adjustment every 20 mm
- ▶ 4 swivelling wheels Ø 125 mm and 1 with brake with bumpers
- ▶ Colour: lagoon blue

PART 6

Technical aids for medical staff

▶ EasyMove

The motorized
medical cart

PRATICIMA
healthcare solutions

► Medical staff widely suffering from **MSD's***

MSD

First reason for sick leave

13 %

Rate of absenteeism in healthcare facilities

3400 €

Average cost per employee

Medical staff walk between **10 to 15 kms a day**, having heavy carts to handle, like nursing trolleys which may **weigh 80 kg**.

Handling a medical cart may be difficult due to bend and elevator thresholds. Medical staff makes also multiple stops due to patients' requests. This requires additional physical efforts and often leads to **improper postures**.

Handling a cart implies to lean the body forward, which may cause diseases, like lumbago, shoulder pain... The medical staff is largely suffering from musculoskeletal problems (MSD's).

*MSD's: Musculoskeletal problems

Move of heavy load implying improper work posture

Musculoskeletal problems

Sick leaves

Non productivity: cost for the facility

► EasyMove

100 % motorized carts

Is medical staff in your facility **exhausted by handling** the nursing, dressing or medicine distribution **carts**?

STOP to manual handling

HOW TO PROCEED ?
USE MOTORIZED CARTS!

PRATICIMA **offers a unique solution**: carts equipped with a motorized wheel. This innovation will remove push efforts done by the users. **Control of the motorization is done very easily with one hand**. Medical staff will benefit from **optimal working conditions**.

- + **100 % motorized:**
handle a 80 kg cart with one hand
- + **Excellent manoeuverability and ergonomic handle:**
less efforts, less risks of MSD's
- + **Ergonomics as an economic solution,**
return on investment by reducing the costs of sick leaves
- + **Selection of the speed and progressive acceleration**
- + **Adaptive system for irregular floors**
- + **Large autonomy of the battery:**
manual mode possible in case the battery has not been charged
- + **Easy to use and to charge the batteries**

► Motorization solution available for:

- Nursing trolleys
- Dressing trolleys
- Dispensing trolleys
- Meal distribution trolleys

Contact us for a DEMO

► Additional solution in order to reduce the MSD's

Mechanized assistance to move beds or cabinets

Electric scooter to optimize staff's long distance movements

Transfer boards to transfer patients without having to lift them

Electrical pill crushing to avoid manual crushing

Systems for lateral transfers

In order to facilitate lateral transfer of the patients, PRATICIMA proposes you the Transglide® boards together with their traction sheet. These items considerably improve medical staff's work conditions. They are ideal for medicine wards, old people's homes and home care.

Photos non contractuelles

Advantages

- ▶ Easy handling
- ▶ Excellent sliding properties
- ▶ Light and space-saving
- ▶ Easy cleaning

Hygienic

Ergonomic

Transfer range

Systems for lateral transfers

transglide® transfer range

Completed with a traction sheet, these boards enable to re-position the patients more easily. Their upper surface is particularly very slippery, contrary to their lower surface equipped with safe strips.

- ▶ Weight : 3,5 kg
- ▶ Composition : HDPE (strong, unbreakable material)
- ▶ Environmentally friendly and non-toxic
- ▶ X-ray translucent
- ▶ Enable to cover level differences until 15 cm

Description	Dimensions (in mm)	Reference
Transglide® « Large »	L. 1700 x D. 650	SAA71401
Transglide® « Small »	L. 1400 x D. 480	SAA71402

Transglide® Traction sheet

This traction sheet is a necessary complement to Transglide® transfer boards and enables to lateralize the patient in order to easily place the board under his body, and without efforts.

- ▶ Weight : 0,2 kg
- ▶ Composition : resistant nylon
- ▶ Flexible and easily foldable

Description	Dimensions (in mm)	Reference
Transglide® traction sheet	L. 1500 x D. 1500	SAA71451

Transfer range

Transfer boards with curved design

The transfer boards with curved design are a good help for the transfer of a patient and are especially designed for people who have difficulties to stand up. They offer assistance and enable to change from one position to another without any efforts : transfer from bed to wheelchair, from chair to toilets or from chair to car.

Their « banana » curved design has been studied in cooperation with therapists in order to facilitate user's position and assure a stable and safe support.

These boards, which have already been sold in several tens of thousands units, are ideal for medicine wards, old people's homes, and home care.

Pinel® restraint system

The **Pinel®** design allows you to address any known restraint requirement with ONE system. At the emergency end of restraining, the aggressive patient can be secured to a seven-point restraint level in about 10 seconds ; but, adjusted safely to a comfortable one-point restraint as he/she calms. At the passive end of restraint needs, confused patients can be secured with full mobility within the bed or chair to the level that patients are not even aware of being restrained.

This single system addresses all possible restraint needs within or between (transport) any institution, e.g. Long Term Care, Emergency Room, Psychiatric, ICU or Correctional facilities...

Advantages

- ▶ Confort: Polyester + Kevlar
- ▶ Security: magnetic locking system
- ▶ Hygiene: treatment against bacteria, easy washing & fast drying
- ▶ Liberty of movements: very flexible when the patient is secured
- ▶ Rapidity: universal system

Compression range

Pinel® restraint system

Complet kit

The kit contains:

- ▶ 4 limb straps
- ▶ 1 waist belt
- ▶ 2 side straps
- ▶ 1 extender
- ▶ 1 belt for trunk
- ▶ 1 pelvic strap
- ▶ 1 strap belt
- ▶ 3 keys
- ▶ 13 axis + bolt with string
- ▶ 2 axis + bolt
- ▶ 1 emergency cutter

Equipped with a color code, this case permits you to put easily the different equipments of the Pinel® range.

Strong points

ERGONOMY

- ▶ 1 « EasyMoove » middle drive wheel with control integrated in the upper safeguard bar
- ▶ 4 directional 125 mm diameter wheels with needle roller bearings
- ▶ Working surface with ergonomic height and extendable thanks to two lateral supports
- ▶ 270° door opening with magnetic plate

SAFETY

- ▶ Maximal insulating
- ▶ 3 side anti-fall upper safeguard bars
- ▶ Peripheral lower bumpers
- ▶ Centralized front brake
- ▶ Emergency stop button on EasyMoove motorized system
- ▶ Key lock

HYGIENE

- ▶ Stainless steel structure
- ▶ Easy cleaning
- ▶ Table can be cleared with same trolley
- ▶ Forward direction respect
- ▶ HACCP standard

Technical features

- ▶ 2 compartments of GN 1/1 8 levels with 80 mm spaces
- ▶ Compartments made of stainless steel sheet, insulated with rock wool
- ▶ Working surface useful dimensions: L. 1139 x D. 641 mm
- ▶ Work surface height: 1000 mm
- ▶ Overall dimensions: L. 1304 x D. 725 x H. 1107 mm
- ▶ Floor space: 0,945 m²
- ▶ Weight: 190 kg

EasyMoove

- ▶ **100 % motorized thrust:** use of acceleration lever
- ▶ **Speed selection** (2,5 or 4 km/h) and gradual acceleration
- ▶ **Compensation system** for uneven floors
- ▶ **Strong battery autonomy:** manual use is possible if battery charge has been forgotten
- ▶ Easy use and charge
- ▶ **Ergonomy is accessible to all:** cost saving solution, return on investment by limiting costs due to sick leaves of medical staff

PART 8

Accessories and equipments

Common accessories and equipments

Bins

We propose a wide range of **bins**. The different available heights and widths enable a modular and upgradeable layout. The same bin can be used in a trolley, a cabinet or placed on a standard lateral rail. It can also be used as compartment in our 400 x 400 and 600 x 400 drawers and it is also adapted for the division of transport cassettes.

We finally propose **bins for medication rolls** which are especially designed for the distribution of unit dose bag rolls.

Hygenic

Hygenic

Strong points

- ▶ Easy cleaning
- ▶ Resistant to products usually used in hospital field
- ▶ Flat surface without dangerous roughness neither sharp edges
- ▶ High strength

Common accessories and equipments

Bins

Bins made of abs and compatible dividers

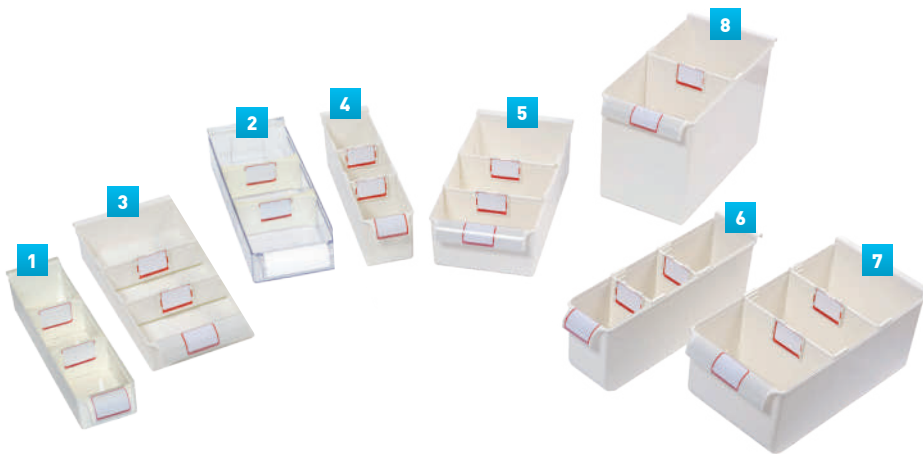

Bins with end stops

The bins with end stops can be used in a trolley or in a cabinet:

- ▶ they are located on a shelf
- ▶ as compartment in the 600 x 400 and 400 x 400 drawers
- ▶ on a standard rail

These bins are proposed in white or transparent (TR), where as our dividers are only available in white.

BINS H. 70

	Bin dimensions (in mm)	Bin reference	Compatible divider reference
1 Bin H. 70 1/6 size	L. 90 x D. 370 x H. 71	8AB070_1_6N	8AC060_1_6*
2 Bin H. 70 1/4 size	L. 135 x D. 370 x H. 71	8AB070_1_4	8AC060_1_4*
3 Bin H. 70 1/3 size	L. 185 x D. 370 x H. 72	8AB070_1_3	8AC070_1_3

The bins H. 70 mm can be used to divide drawers H. 75 mm.

BINS H. 110

	Bin dimensions (in mm)	Bin reference	Compatible divider reference
4 Bin H. 110 1/6 size	L. 90 x D. 370 x H. 112	8AB110_1_6	8AC110_1_6
5 Bin H. 110 1/3 size	L. 185 x D. 370 x H. 112	8AB110_1_3	8AC110_1_3

The bins H. 110 mm can be used to divide drawers H. 115 mm.

BINS H. 150

	Bin dimensions (in mm)	Bin reference	Compatible divider reference
6 Bin H. 150 1/6 size	L. 90 x D. 370 x H. 150	8AB150_1_6	8AC150_1_6
7 Bin H. 150 1/3 size	L. 185 x D. 370 x H. 152	8AB150_1_3	8AC150_1_3

The bins H. 150 mm can be used to divide drawers H. 155 mm.

BINS H. 230

	Bin dimensions (in mm)	Bin reference	Compatible divider reference
8 Bin H. 230 1/3 size	L. 185 x D. 370 x H. 233	8AB230_1_3	8AC230_1_3

The bins H. 230 mm can be used to divide drawers H. 235 mm.

Common accessories and equipments

Bins

Bins without end stops

That kind of bins is adapted for the division of transport cassettes.

<i>BINS H. 60</i>	<i>Bin dimensions (in mm)</i>	<i>Bin reference</i>	<i>Compatible divider reference</i>
Grey bin H. 60 1/7 size	L. 75 x D. 356 x H. 56	8AB060_1_7	8AC060_1_7*
White bin H. 60 1/6 size	L. 90 x D. 355 x H. 60	8AB060_1_6	8AC060_1_6*
White bin H. 60 1/4 size	L. 135 x D. 355 x H. 60	8AB060_1_4	8AC060_1_4*

The bins H. 60 mm can be used to get compartments in the cassettes with 2 and 3 levels.

Bins for medication rolls

These bins are designed for the distribution of unit dose bag rolls. They are all equipped with a roll dispenser and a divider.

	<i>Description</i>	<i>Bin dimensions (in mm)</i>	<i>Bin reference</i>	<i>Compatible divider reference</i>
9	White bin H. 70 1/6 size	L. 90 x D. 370 x H. 71	8AB070_1_6D	8AC060_1_6*
10	White bin H. 110 1/6 size	L. 90 x D. 370 x H. 112	8AB110_1_6D	8AC110_1_6
	White bin H. 150 1/6 size	L. 90 x D. 370 x H. 150	8AB150_1_6D	8AC150_1_6

*These dividers are equipped with a label holder on each face (one in horizontal position and the other in vertical position).
For other dividers, use the adjustable label holder ref. 8A010.

Accessories and equipments

Modulo[®] pill dispenser trays and containers

The Modulo[®] pill dispensing tray is the central element of medication distribution for **a nursing home or a long-stay facility**. As it is designed for **the weekly preparation** of medicines, the detachable daily pill dispenser system provides adaptability for **distribution over 7 or 8 days**.

Two tray sizes are available. The model for **7 pill boxes** optimizes the storage area in treatment rooms. In addition, this tray is compatible with Pili cart[®] dispensing trolleys, Modulo[®] transfer and storage cabinets.

The model for **10 pill boxes** is in 600 x 400 format. It is compatible with 600 x 400 Neop[®] trolleys and cabinets.

Hygienic

Ergonomic

Key points

- ▶ Suitable for dry and oral solutions preparations
- ▶ Secure: no risk of mixing different pill boxes
- ▶ Hygienic: machine washable (< 60°C)
- ▶ Compatible with Pili[®] soft traceability software

Accessories and equipments

Modulo[®] pill dispenser trays and containers

Technical features

Practical and ergonomic

- ▶ Suitable for use in dry and oral solutions preparations
- ▶ Stackable trays
- ▶ Partition with removable convex sliders for better handling
- ▶ Pill dispenser tray opens in both directions

Secure

- ▶ Detachable daily pill dispensers integrated on a tray
- ▶ Trays have double anti-slip stops
- ▶ Pill boxes free of corners
- ▶ No risk of mixing pill boxes
- ▶ Machine washable up to 60°C

Accessories and equipments

Pill dispenser trays for structures 600 x 400

PRATICIMA has expanded its range of products for the weekly preparation of medicines with **two new large pill dispenser capacities for the 600 x 400 size**.

The Modulo® XL daily pill-dispenser tray enable a preparation on **7 days** and the 8 Eurojour® pill-dispenser trays on **8 days**.

The trolleys and cabinets provide the full logistic chain, from preparation in pharmacy to delivery to the patient.

Hygienic

Ergonomic

Key points

- ▶ Preparation for 7 or 8 days
- ▶ Adapted for the whole treatment of one patient (dry preparations, bags, oral solutions...)
- ▶ Label can be removed for cleaning
- ▶ Different dispenser capacity

Accessories and equipments

Pill dispenser trays for structures 600 x 400

XL Modulo® systems

Technical features

- ▶ Each pill dispenser is composed of:
 - 4 ABS sliding removable dividers.
 - 1 blue or raspberry Polypropylene drawer.
- ▶ The pill dispenser body (made of POM) is smooth for easy washing.
- ▶ Drainage systems make drying easier and avoid any residual water.
- ▶ The ABS tray keeps the pill dispensers together.
- ▶ The double anti-slip stop makes it easier to take the tray.

Safety seals with numbers

Our numbered seals are used to secure the emergency trolleys, trolleys containing medications or for the control of transport containers.

The seal design enables to closely tighten to the product. Once the seal is tightened, there is no more space for any further manipulation.

These one-single use seals help to get a quick closure without any tools. They have the benefit of presenting a diameter which is adapted to very small holes.

- ▶ Adjustable seal with smooth stem and one-way metal insert
- ▶ Material : High Density Polyethylene
- ▶ Color : red
- ▶ Traction resistance: 10 kg
- ▶ Total length : 285 mm
- ▶ Stem length : 222 mm
- ▶ Stem diameter : 2,3 mm
- ▶ Label dimensions : 18 x 31 mm
- ▶ Consecutive numbers
- ▶ Packaging : batch of 100 seals (10 sheets of 10 seals)
